Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. In 2013, I was named Marylander of the Year by the **Baltimore Sun** because as the National President of the NAACP, I lead the effort to abolish the death penalty, co-chaired the effort to pass the DREAM Act, ensured marriage equality, and expanded voting rights. I've been a community organizer and civil rights leader my entire life and I've released a comprehensive plan for criminal justice reform that ensures we move further faster on ending mass incarceration, lowering recidivism rates, legalizing marijuana for adult use, and more.

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. I've released a comprehensive plan for criminal justice reform which can be found on my website. In it, there are several proposals I've put forward to keep Marylanders safe, ensure our justice system is actually fair, and save taxpayer money. I specifically outline my plan to lower incarceration by 30%, which I've successfully accomplished in several other states as the National President & CEO of the NAACP, and my plan to legalize marijuana for adult use and use the tax revenue to fund full-day universal pre-K.

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **I have been active in the anti-fracking campaign for western Maryland and more recently took an activist stance against the City of Cumberland using public funds to acquire a residential neighborhood for a strip mall development (Rolling Mills), and wrote newsletters warning against the use of eminent domain for this and future projects.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I want to use this space to clarify my response on legalizing marijuana for recreational use. If and when the citizens approve the legalization of recreational marijuana, I would want tax revenues generated by its sale to be used for developing better, long-term, comprehensive substance abuse treatment care in our communities, which is sorely lacking. This is a golden opportunity to deal with the opioid crisis and eliminate the unintended social harm done by the criminalization of casual marijuana use and possession. I have a track record of many years as a volunteer in senior advocacy, LGBT and HIV advocacy, and professional experience in mental health and substance abuse work.**

QUESTION: Do you commit to funding the approximate \$2 billion needed to establish an updated, equitable funding formula that will meet the needs of students across the state? **Yes**

QUESTION: Should state law be amended to provide for a civil remedy for discrimination in places of public accommodations? **Yes**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **I am a disabilities advocate. My brother's have developmental disabilities and have faced many instances of discrimination. I helped to promote their rights by giving testimony on HB1499 in 2016. This bill would have mandated funding towards the developmental disabilities wait-list initiative in order to provide services for individuals with developmental disabilities across the state. As a young man I advocated for my brother's education, so they would not be separated from their able-bodied peers.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I would continue to advocate for the elimination of waiting lists for services for individuals with developmental disabilities. I will also push for better education for individuals with disabilities and push for programs that bring individuals with disabilities into the classroom with their able-bodied peers. The rights of individuals with disabilities are often forgotten. I will always be on the front line fighting for their rights.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **1. Increase Bill of Rights protections for whistleblowers against state agencies and seek immediate, mandatory PIA disclosure by the state agency whenever a civil rights lawsuit is filed against it with treble damages automatically provided to the plaintiff in the civil rights matter should full disclosure not be made immediately (15-30 days?) to the plaintiff. 2. Strengthen MD Declaration of Rights protections under law for those interacting with hospitals, quasi-state agents (private agents such as insurance agencies and medical facilities cloaked with some statutory state authority) and other state agents such as administrative inspectors. Mandating that no provision of the MD Declaration of Rights may be violated against a person. Specifically, to include at least treble civil damages against any such agent both personally and departmentally, with the insurance policy unable to disclaim liability, should the agent or person be proven in circuit court to have violated the Maryland Constitution, and specifically allowing for said claims to proceed solely in state court similar to anti-discrimination statute claims.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. I am an ACLU Know Your Rights Trainer. I have volunteered on multiple occasions to teach various groups of individuals how to safely assert their rights when interacting with police. I have traveled to Annapolis to lobby my personal State Senator on several laws- one which would remove the Governor from the Parole process.

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. Education is a civil right, yet we are failing to provide so many students the world class education they deserve. I will support and help to implement the recommendations of the Kirwin Commission. I also believe that healthcare is a human right and should be made accessible to everyone, regardless of employment status. Finally, I believe we need to open our primaries and restore voting rights to those who have lost them.

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **#1) In 2017, I was ally to the immigrant communities, lobbying for HB 272 & HB 1362, which sought to limit the role Marylanders were required to play in helping carry out Trump's immigration agenda. #2) In 2018, in the wake of Parkland, I was a vocal advocate for the children in Harford County, supporting students' right to walk out of school in protest and not be held to unreasonable retaliation.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **#1) I would try to help legalize recreational marijuana, mitigate legal proceedings due to possession, and use the taxes to help heal some of the damage to communities done by the "War on Drugs." #2) I'd work to keep the 2nd amendment in check. I was in Annapolis a lot during the 2018 legislative session, as an advocate for sound gun safety laws, and I'd continue in 2019 as a legislator.**

As the former Chair of the Election Law subcommittee (2006-2014), and a fairly well-versed student of election law policy, I worry that the essence of our democracy is under threat and needs to be protected and celebrated, not demeaned and mettled-with. I was also the champion of the most comprehensive campaign finance reform Maryland has seen in nearly 50 years and I want to continue that effort.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **1) I was one of 5 legislators who requested that Attorney General Frosh examine whether Maryland's bail review process was constitutional. He opined that it likely was not, resulting in a change in judicial rules that requires an individual determination of bail, taking into consideration public safety and not whether someone can pay. 2) I supported the Trust Act which would have removed local law enforcement from enforcing federal immigration law except when there is a judicial warrant in place. When President Trump announced the Muslim ban, I protested at BWI.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **1) I will continue to work on expanding the availability and scope of pretrial services. I helped to get the \$1 million the General Assembly passed this year and supported the creation of the Pretrial Services Grant Fund. Justice should not be determined by one's zip code. 2) I will work to oppose debtors' prisons & body attachments. Our state Constitution states that individuals shall not be imprisoned because of debt, yet we still have residents who are jailed because they cannot afford to pay a bill. We need stronger laws to protect Marylanders from being criminalized for being poor.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **This year, I introduced House Bill 1626, which would have prohibited the Motor Vehicle Administration from disclosing personal information to United States Immigration and Customs Enforcement unless MVA was provided with a valid warrant or subpoena issued by a federal court or a Maryland court. Also, I was the lead advocate for legislation this year that prohibits microchipping without consent. While my HB 1101 did not pass, the cross-file (SB 944) did pass.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **While my HB 1626 did not pass, it did lead to the creation of a State work group to review what other States that have second-tier driver's licenses, are doing to prohibit disclosure of information to ICE without a warrant or subpoena. Based on the findings of the work group, I will re-introduce legislation to limit ICE's access to MVA data. If the Trump Administration follows through on its threat to prohibit health care funding to groups that also provide abortion services, I will strongly advocate for Maryland to replace the federal funding denied to State groups as a result of this rule.**

QUESTION: Should state law be amended to provide for a civil remedy for discrimination in places of public accommodations? **Yes**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **I have been a staunch supporter of voting rights measures (like automatic voter registration, polling place registration, and voting rights for ex-felons on parole) and an a serious opponent of voter suppression measures. I have also been a strong supporter of justice reform (including elimination of mandatory sentencing and bail reform).**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I will continue to be a strong supporter of PUBLIC schools. I will be an opponent of public money for private institutions in general, and even more specifically if they have discriminatory hiring and admittance policies. I will be a continuing supporter of justice reform, especially as it applies to reducing biases against minority groups.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. I sponsored HB838 in 2015, and the complimentary HB11 in 2016, creating parity in coverage of in-vitro fertilization between Maryland same-sex and opposite-sex couples and supported legislation returning voting rights to former felons.

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. I will continue to press for closure of the achievement and opportunity gaps through expansion of community schools, identification of need and provision of behavioral health and wrap-around supports year-round for students from the earliest grade levels, and implementation of the Kirwin Commission recommendations. I'll continue to press for establishment and implementation of training, protocols and standards in policing that are constitutionally sound and equitable.

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **Since childhood, I grew up believing that the fight for civil rights and civil liberties is fundamental to our democracy. I marched for civil rights on numerous occasions, interned at the ACLU of Maryland my senior year in HS, and more recently as an elected official, I have put forth legislation to protect civil rights. Just two examples of this are co-sponsoring legislation to prohibit discrimination based on gender identity and co-sponsoring county legislation that was our local version of the "Trust Act".**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **Many of the items listed earlier in this survey are among my top priorities. Two things I am especially looking forward to working on are (1) Limiting state and local law enforcement's collaboration with federal immigration enforcement efforts; and (2) Legalizing the adult recreational consumption of marijuana and using resulting tax revenues to help communities of color, which have been most harmed by marijuana criminal laws.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **As a former PTA leader, I worked with the Scotland community in Potomac to advocate for their community center, which had been an overlooked need in my community. After several years of advocacy, this goal was achieved. As a VP of Educational Issues at MCCPTA, I was always meeting with MCPS Directors and staff to work to close the achievement gap, participating in countless hours of meetings, always stressing the importance of parental involvement.** Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **We must focus on policies that make families stronger. Too many children are living in one parent households in a downward spiral of poverty. As a former Maryland State Board of Education member, I believe that targeting resources on new parents in poverty can break the cycle of poverty. Equipping moms and dads with parenting skills that stress reading to their children will do so much more than a lackluster Universal Pre-K program, which would do nothing new to strengthen family bonds.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **I am proud of my lifetime voting record and leadership on ACLU issues. This year I led successful efforts to require independent investigations for sexual harassment by public officials. Last year, as Chair of the Montgomery County House Democratic Caucus I led the delegation in standing up to the bail bond industry in coalition with the Black Caucus, Latino Caucus, and AAPI Caucus.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **If elected to another term I will continue my advocacy on behalf of working families and creating economic opportunity for everyone. This includes criminal justice reform, educational equity, access to affordable high-quality childcare and paid family and medical leave. I will also continue my leadership on women's reproductive rights, and access to contraception and abortion.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **The most prominent examples are from my time in the legislature. Under the leadership of Delegates Barron and Dumais, I was one of the five state legislators who wrote to Attorney General Frosh about the constitutionality of our cash bail system. His response to us helped him shape and pass the judicial rule regarding cash bail reform. I have also been at the forefront of the efforts to defend that rule from being overturned in the legislature.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I believe these next four years will be important to defend our victories and blaze new trails forward. To defend our victories we must continue to fight against mandatory minimums and efforts to undermine the cash bail reform efforts. New victories will--I hope--come as we continue down the path of shifting from marijuana criminilization to marijuana legalization, taxation, and regulation.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **I was the Public Policy Director for the ACLU of Maryland for four years, overseeing their statewide policy and legislative work. My work included fighting for police accountability, First Amendment rights, voting rights, privacy, open government, criminal justice reform, immigrants' rights, women's rights, LGBTQ rights, and more. To cite two specific examples: I led the ACLU's legislative work on privacy and technology, ensuring that Marylanders are not tracked by law enforcement without search warrants, and I led the ACLU's legislative work on addressing the misguided war on drugs, which disproportionately affects people of color.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **If elected I will continue to fight for all Marylanders' civil rights and civil liberties. For example, I will continue to fight for reform to our criminal justice system, including pre-trial reform (especially as it relates to cash bail), the use of solitary confinement and programming for women. In addition, I will continue to fight for funding of our public schools and not schools that discriminate against students or their families.**

QUESTION: Do you commit to funding the approximate \$2 billion needed to establish an updated, equitable funding formula that will meet the needs of students across the state? **Yes**

QUESTION: Should state law be amended to provide for a civil remedy for discrimination in places of public accommodations? **Yes**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **1) As a member of the Rockville City Council, I championed the city law that prevents local police from asking about immigration status or from complying with ICE detainer requests. I wrote and sponsored the bill and worked with local activists, including ACLU members, to generate public support for the bill. It passed 3-2 in June 2017. 2) I wrote a resolution to celebrate Rockville's diversity and called for a town hall to discuss ways for Rockville to be more inclusive.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **1) End pay-to-play by special interests in state elections by prohibiting corporations and for-profit entities from receiving a state contract if they contribute to a candidate for Governor or the General Assembly. For for-profit entities shouldn't be able to buy election results that are favorable to their revenues. 2) End money-based bail for defendants accused of non-violent offenses. The current bail system unfairly holds poor people in jail even when they don't pose a risk.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **I have spent over 20 years working to dismantle mass incarceration, through legislation and program development. I worked to abolish the death penalty, developed model misdemeanor diversion programs, incorporated these into legislation, and created processes to give residents voice in policing policy. I have developed models for mediation and restorative practices in schools and I led the effort to pass the legislation to create the Commission on the School to Prison Pipeline.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I will continue my work on criminal justice reform, focused on sentencing reform and redirecting funds from mass incarceration to investment in communities that have suffered most under this racist system. I intend to fight for our immigrant communities, currently under extreme threat from the federal government. I will prioritize education funding to close the opportunity gap, and ensure that all children receive the education that is guaranteed by the state Constitution.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **1. I helped organize an immigration forum at the University of Maryland last year, providing financial support through my council office to defray the cost of renting a room in the student union, arranging a backup location when we thought UMD was going to fall through, helping to promote the event, and holding strategy calls and a meeting with the main organizer to determine the speakers. 2. I have been a major supporter of a group at High Point High School for immigrant students called Liberty's Promise. I am one of three Prince George's County Council members who ensures the organization gets a \$75,000-\$100,000 grant each year and I speak to the students at least once a year to promote public service and answer their questions about local government. Last year I helped one of the students land his first job.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **1. I will work to advance the strongest possible version of the Trust Act to ensure state and local police in Maryland are not acting as de facto ICE agents and that law enforcement officers are not tipping off ICE agents when they interact with undocumented immigrants during a routine traffic stop or similar interaction. 2. I will work to extend protections for transgender students in public school settings, which is where they are most likely to face bullying and discrimination and where they are at greatest risk of physical and emotional harm.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **I spoke out and voted for civil marriage equality and I was a leader in the successful effort to repeal the death penalty in Maryland. I have supported and voted for non-discrimination laws at every turn, including the Justice Reinvestment reforms enacted in this legislative term. One of my more recent efforts has been to ban discrimination based on source of income in rental housing. I have worked on this issue publicly and privately for years.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I will continue to be a reliable advocate for justice issues, non-discrimination and affirmative action, including steps to assure opportunities in state contracting for Minority Business Enterprises and women-owned businesses. I will continue to support reforms of the criminal justice system, especially in the area of mental health. I also will continue to advocate for people with disabilities, children and vulnerable adults. Adequate funding for behavioral health services and services for people with developmental disabilities should be a civil right, and I will continue to address these issues.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. In 2015, I worked closely with the ACLU to sponsor and pass HB954 - Deaths Involving Law Enforcement Officer - Reports, which made Maryland the first State in the nation to require law enforcement agencies to report all civilian deaths in police encounters, and then, for that data to be made public. I have also partnered with the ALCU to pass legislation to study how we can begin to implement restorative practices in our schools and end the school-to-prison pipeline and the large racial disparities in school suspensions.

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. We need to continue to improve transparency and accountability in our police departments. I plan to continue to propose legislation to build on HB954 that will mandate reporting of deaths in correctional facilities around our State. I also plan to continue to introduce legislation to require that police settlement costs for police brutality cases be made public.

QUESTION: Should state law be amended to allow the creation of professional, independent bodies outside of police departments to conduct the investigations of complaints of misconduct by police officers that may lead to departmental discipline? **Yes**

QUESTION: Do you commit to funding the approximate \$2 billion needed to establish an updated, equitable funding formula that will meet the needs of students across the state? **Yes**

QUESTION: Should state law be amended to provide for a civil remedy for discrimination in places of public accommodations? **Yes**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. I testified multiple times in support of the Non-Discrimination Ordinance when it was being considered by the Annapolis City Council, and I recruited friends and neighbors to get involved as well. This ordinance, which passed, was designed to make Annapolis more immigrant and refugee-friendly and to fight a Trump-inspired movement to do the opposite. As a member of the Annapolis Education Commission, I have worked hard to get more resources for our public schools, to pay teachers better, reduce overcrowding, and improve safety.

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. I have spent my 30-year career working to improve equity in our schools and close racial and socioeconomic achievement gaps, including at the Children's Defense Fund. There is a tremendous opportunity for progress in this area in the legislature next year - I have attended many of the hearings and meetings that are setting the stage for that and I will prioritize doing the most for the kids who have the least. I am also interested in criminal justice reform, including expanding restorative justice practices.

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **Our campaign condemned acts of racism that have occurred within District 31B where I am running for State Delegate. Senseless acts such as those that took place have no place in our society. Also, our campaign is on the side of fighting for equality across all social areas to include race, religion/non-religion, socio-economic status, sexuality, ethnicity, gender, and others.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I am committed to personally educating and being part of a team of educators to erase the inequities that divide our community. Regardless of who we are, where we're from, whom we love, and what we look like Maryland must be a safe and pleasant environment we can all call home. I will also stand up and fight for the disenfranchised who are in and out of the Maryland Corrections system. Criminal justice is an area of imbalance where the freedoms of minorities are taken away and rarely given back.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. I advocated for police reform during the Freddie Gray protests in Baltimore. I marched in the Women's March in 2017 and 2018. I marched for affordable healthcare with Our Lives on the Line. I marched to Fix the Fund. I stood with Dreamers to keep DACA. I stood with refugees and immigrants at BWI. I marched many times to end racial inequality. I have been an advocate for a living wage and for women and children.

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. I understand the importance of ensuring that women are treated equally in the work force. I would support and sponsor legislation to set requirements for equal pay. I would support implementing a \$15 minimum wage. Income inequality solutions must also address access to clean water, healthy food and quality education.

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. I've served on the **Board of the Maryland Legislative Agenda for Women** for the past three years. **MLAW** advocates on a variety of women and family related economic, educational, judicial, political, and social justice issues. As an attorney, I also established Maryland first adult guardianship visitor program for the **Montgomery County Circuit Court**. Program was designed to monitor and provide oversight for vulnerable adults

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **1. Making school funding a priority and preparing our youth for the future through affordable higher education or job training. 2. Increasing the number of decent paying jobs. While unemployment is low, wages are stagnant making it impossible for families to achieve economic security.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **I have advocated and sponsored legislation for greater transparency in government including changes to the "Open Meetings" law, and the recently passed change in Anne Arundel County to replace an appointed school board with an elected one. I have been a strong supporter of the civil liberty of self defense by co-sponsoring legislation to make it easier for law abiding citizens to obtain and legally possess firearms, and to defend their homes (castle doctrine). I have voted to protect religious minorities in their autonomy on health decisions for themselves and their children.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I will work to seek greater protections against the growing persecution and intolerance of practicing Christians and their religious institutions. Freedom of religion is one of the greatest civil rights, and one of the organizing principals in the founding of the State of Maryland. Your advocacy in this survey for 1) a civil right to sue for any display of Christian values in public accommodations, and 2) the creation of politically correct guidelines, with the ironic pretense of "anti-discrimination", with which to beat Christian schools is a poor sign of what the ACLU has become.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **As an attorney who handles criminal defense matters, I am always advocating for my clients' constitutional rights and civil liberties. Additionally, in an effort to give back to the community, myself and my office have coordinated a number of pro bono expungement clinics both here in Cecil County as well as in Baltimore City. In 2018 alone we have provided free legal services for over 1,000 expungement petitions for citizens in either homeless, low income, or drug rehab facilities.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I will continue to be a defender of the 4th, 5, and 6th amendments and their applicable Maryland counterparts. I will also work to expand access to and eligibility for expungements in criminal records as appropriate legislation exists.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. In 2016, I led efforts of behalf of the **American Diabetes Association to pass HB 771 requiring schools to provide care to students with diabetes to prevent exclusion and and discrimination against these students by their schools because of diabetes. I have marched in the "Women's March" in 2017 in D.C. and 2018 in Annapolis. I have contacted and protested (outside of his Kent Island office) Congressman Andy Harris' position on Planned Parenthood. I protested the Charlottesville incident with other activists at Chesapeake College last summer and written letters to Representative Harris and others. I have been employed by the American Diabetes Association in its anti-discrimination division since 1999. Check out my program at www.diabetes.org/safeatschool**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I will support more equitable education funding so that Baltimore City children have the same quality of education and opportunities as children in Montgomery County or Queen Anne's County. I will support a bill against net neutrality so that all Marylanders will have equal access to the web. I will support bills that enhance fairness for our LGBT community and prohibit discrimination in the workplace because of sexual preference. I will fight for a living wage for our working families - regardless of skin color or ethnicity - because all Marylanders have the right to a good quality of life. I will work to make sure all Marylanders have access to the polls and cannot be turned away due to race or ethnicity. I will proudly stand up for all Marylanders and stand against hate, racism, and bigotry. Thank you ACLU for all that you do.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **I have testified in the House and Senate on Police Accountability based on a case that occurred in Somerset County. A Maryland State Trooper called the home of an African American women, she was not a home so he left a name and when he thought he hung up the phone he left a defamatory word on her voice mail as it relates to people of color. I testified in the State House to request the state to allow incarceration persons to maintain their home address while serving their sentence. "Population without Representation"**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I would advocate for the legislature to design and pass a Police Accountability Act to allow the citizens of the State to be informed of the penalties invoked on Police officers who violate the duties of their responsibilities. I would continue to advocate that all citizens of the State of Maryland be assured of their constitutional rights to cast a vote at all elections which includes former incarcerated persons without undue duress from election boards and workers.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. In my over 40 years as a community advocate, I have led organizations and built coalitions that have united to resist political decisions made without community input, such as the displacement of working-class residents for redevelopment. I have also led efforts to protect citizens from environmental racism by informing the public through tours and museum exhibits about Baltimore's legacy of toxic pollution in minority communities, and I worked with the NAACP to challenge Johns Hopkins on public housing projects. I have also worked with the NAACP to challenge Johns Hopkins on public housing projects.

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. If elected I will work to reform the LEOBR so it cannot be used by police officers to shield themselves from fair and thorough investigations of misconduct, and I want to empower civilian oversight to impose meaningful disciplinary measures on officers who commit civil rights violations. I will also work to end Maryland's unjust cash bail system, and end failed "war on drugs" policies that treat troubled citizens as criminals. I would also like to impose higher standards of transparency and accountability on state and local government agencies, especially in Baltimore City.

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **During my term as President of the Legislative Black Caucus of Maryland (2016-2018), I advocated for the LBCM to join with the Women's Caucus, the Hispanic Caucus, and the Asian and Pacific Islanders Caucus to strongly support the Trust Act (legislation that was passed by the House in 2017 Session but failed in the Senate). I also strongly supported the Dream Act and the special Drivers License for undocumented residents in MD. I have been a staunch advocate for all legislation during my tenure as a State Delegate that supports civil rights and civil liberties.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I will continue to sponsor and support legislation that protects and promotes civil rights and civil liberties for all minorities, as well as members of the LGBTQ community in matters related to education, employment, housing, and health and welfare issues. Issues related to law enforcement continue to be critical as they relate to interactions between people of color and police officers; I will definitely sponsor and/or co-sponsor legislation to end all such discriminatory practices. I will also continue to support efforts to protect our immigrant community from being targeted and displaced because of their undocumented status.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. I currently serve on Baltimore's Community Relations Commission which is charged with enforcing the City's anti-discrimination laws. As the former Director of Political Empowerment for the Greater Baltimore Leadership Association, I worked to raise awareness about felon voting rights restoration. Bonus info: While a law student at Howard University School of Law, I served as the President of our campus ACLU chapter.

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. I support equitable educational funding indexed to a jurisdiction's median income. Further, this funding should employ an equity lens based on race and ethnicity to combat systemic disinvestment. I support banning questions about past salary history on job applications as they reinforce gender wage disparities.

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **1) healthcare is a human right, and for that reason I have worked to protect access to quality, affordable health coverage under ACA, not only as staff at the Maryland Health Benefit Exchange, but also as Delegate and lead sponsor of the Basic Health Plan bill, which passed as part of the omnibus HB 1782; 2) reproductive freedom is a human right, for that reason I not only volunteered on clinic defense against anti-choice attacks at Planned Parenthood clinic, I also helped pass legislation to protect funding for Maryland Planned Parenthood in face of Federal cuts.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I will; 1) work to pass legislation that will reduce the 15 year waiting period for expungement of burglary, theft and possession with intent to distribute; and 2) work to pass legislation protect immigrant rights, such as the TRUST Act.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **First, on immigrants' rights, I saw Donald Trump's anti-immigrant statements about drugs, rape, and general crime and his administration's practices. I saw how those practices created risks for immigrant communities, their families, and their children. And so, as a Cheverly Town Councilman, I sponsored legislation to make my town a sanctuary town. Second, on police accountability, I have sponsored forums on race and policing and criticized police use of racist terminology.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **Standing on the shoulders of past civil rights/liberties giants, I will 1) put real teeth into ALL of the watered down civil rights/liberties legislation from recent years; and 2) pass bold legislation to protect Marylanders' rights and freedoms. That is, I will move the state forward on criminal justice reform, the War on Drugs, public schools, open government, net neutrality, voting rights, women's rights, police accountability, discrimination, and immigrants' rights.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **I have always been an activist and an artist, even prior to adulthood. My advocacy is mostly environmental, especially now because I prefer to know what I'm talking about before I open my mouth and I've spent the last 8 years researching environmental science. My interest, though, has been species conservation for the purpose of preserving biodiversity. Biodiversity and environmental resources are things worth preserving even in urban communities. During my studies I have learned the importance of sustainability and how each biome, including the urban one, is significant to conservation research. I pursue my master's now with the intent to find solutions to urban sustainability as much as endangered species conservation. Those living in poverty are at the greatest risk for drinking polluted water and breathing polluted air. This was the inspiration behind organizing WaCo's 2017 Climate March and, in part, the reason for the pursuit of my BA in environmental studies.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I will support or spearhead the effort to improve the programs available to incarcerated persons, as well as the condition of the prisons. Furthermore, I would really like to see better regulation of prisons in Maryland. If they are going to be private the workers need to be paid a living wage, the CEOs need to be paid less, the corporations can afford to be taxed more, and the facilities could afford better conditions, like better food and programs.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. I am a member of TWW Harford County and as a member of TWW, I have engaged in workshops that deal with the School to Prison Pipeline. I have also attended School Board Meetings to advocate on behalf of the rights of students. I wrote my own writ of certiorari to the Supreme Court on behalf of FMLA. I have successfully fought against Harford County Zoning against proposals on the rights of myself and my neighbors.

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. I will work with your organization and others to put forth legislation to: decriminalize marijuana and allow for its recreational use, propose allowing citizens that have been convicted of a crime to vote, propose legislation to allow female prisoners get access to the same programs as given to their male counterparts. I would also propose legislation to ensure the rights of the LBGQT community. I am currently putting together a program to keep and secure the rights of senior citizens.

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. I have been the lead sponsor of legislation to require health insurance companies to recognize pregnancy as a "major life event" so that women who do not have insurance and who become pregnant will be able to enroll in coverage (HB1038, 2018). I was also the lead advocate on behalf of the Asian American and Pacific Islander Legislative Caucus for the Maryland Trust Act of 2017 (HB1362). As the legislative chair of the caucus, I provided written and oral testimony in support of this bill.

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. I am concerned that individuals with mental health conditions are more likely to be incarcerated or serve time in the criminal justice system. As a physician, I believe these individuals need to be offered treatment, and so I will advocate for legislation that will screen all individuals entering our jails and prisons and ensure that those who need treatment receive it. I also believe that minority drivers are more likely to be pulled over by law enforcement, and I will be willing to sponsor legislation that reduces the continued likelihood of discrimination against minorities.

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **As a recently retired Veteran not previously politically engaged, I point indirectly to a 27-year career of service to our Nation in which the promotion and protection of our civil rights is inseparable from supporting and defending the Constitution. And while our military has historically been exclusionary with respect to some civil liberties, each time society has driven changes to our rules, we Servicemembers have stepped up to lead the way.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I firmly believe the surest way to protect and promote civil rights and liberties is by ensuring equality under the law. To that end, I will pursue legislation that increases equity and rejects privilege.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **As a Senator and former Delegate, I have supported and passed bills to fight discrimination against women, LGBTQs, immigrants, people of color and all backgrounds, sexual harassment, hate crimes, racial and religious profiling; support gun safety, marriage equality, dreamers, bail reform, and criminal injustice inequalities. In particular, I have supported, sponsored, and helped pass the Firearm Safety Act, Justice Reinvestment, Civil Marriage Protection Act (and efforts to support Question 6), Fairness for All Marylanders Act, and Maryland Healthy Working Families Act (earned sick leave) and laws to repeal the death penalty, ban licensed therapists from offering Conversion Therapy, to support in state tuition for Dreamers, living wage, prevailing wage, and collective bargaining, and to increase the minimum wage. I have been the lead sponsor of the Maryland Equal Pay for Equal Work Act and laws to allow transgender individuals have their birth certificates reflect the correct gender without a court order, surgery, or placing a marker on the certificate, to increase penalties and relief in cases of discrimination in public accommodations, ensure women inmates have essential menstrual hygiene products available to them in facilities and crime victims with limited English proficiency have access to court interpreters, increase transparency in public documents requests, allow exceptional individuals with serious disabilities to have access to nursing care and work full time, and to fight domestic violence, human trafficking, sexual assault, senior and child abuse, cybercrimes, identity theft, and home invasions. I have also sponsored and supported bills to end solitary confinement, anti-net neutralities policies, exploitative practices by recruiters of foreign labor and the Maryland Trust Act, Safe Act and to protect the rights of immigrant and DACA students. As Chair of the Maryland Legislative Asian American & Pacific Islander Caucus, I have worked in coalition with the leaders of the Legislative Black and Latino Caucuses and women's, Asian American & Pacific Islander, Latino, and African American, labor, faith, LGBTQs, immigrant, community and civil rights organizations, including the ACLU, on issues and legislation of common concern.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **In 2017, I advocated with citizen lobbyist groups at the Maryland state capital to pass a bill that would provide custody protections for rape victims. In 2018, I went to the Annapolis once more with the Montgomery County Education Association to promote increased rights and protections in the public education system, which included an education lockbox, equity funding, and securing the right to organize for community college staff.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **To make the ease of promoting civil liberties easier, I will fight to amend the state constitution to include the ballot initiative as a Maryland voter's right, enabling more direct democracy options and increasing voter participation. To enable equity as well as equality in the workplace, I will advocate for a state scheduling program similar to the Schedule A hiring done by the federal government that will incentivize adding women, minorities, and LGBTQ communities to a company's workforce.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **1) I will be advocating for our 2nd Amendment. The 2nd Amendment is clear calling for a "well-regulated militia" and protects the people's right to keep and bear arms. This has become a subject hotly debated and I believe it has been trampled on. 2) Our 4th Amendment has been violated with the new "Red Flag" law in which law enforcement can enter the home after a sworn affidavit is completed. I support the need for a search warrant in any case to enter a home and seize property. This does not preclude law enforcement intervening and detaining an individual while a search warrant is issued.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I will constantly work to make sure there is an advancement of equality for all people regardless of race, sex, age, disability, national origin, religion, or certain other characteristics. I will address income inequality by fueling dynamic private sector growth and creating opportunity to work. Making sure that men and women in the same workplace be given equal pay for equal work and paid equally in the work place. To make sure there is a clear and comprehensive mandate for the elimination of discrimination against individuals with disabilities.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **I have been a leading civil rights attorney in Baltimore for over the past decade. Out of law school at the University of Baltimore, I chose to dedicate my career to those who need my help the most. I spent seven years at the Office of the Public Defender in Baltimore where I fought for the Constitutional rights of those who could not afford their own lawyer. The past six years, I have represented children who were lead poisoned in Baltimore. In both areas of law, in addition to my courtroom advocacy, I have traveled to Annapolis to advocate for changes to our laws that will provide better treatment and outcomes for those living in poverty.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **First and foremost, I will fight to fully fund our public education system in line with the recommendations of the Kirwan Commission. We can not afford as a state to let school systems in poorer areas to be underfunded and left behind. Additionally, I have been vocally supportive of the legalization and taxation of marijuana. When I was at the Office of the Public Defender, I successfully worked with the ACLU and lobbied for its decriminalization. Moneys generated from the expected revenue should be used for our public schools in areas like Baltimore that have been underfunded by the current administration.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **As an advocate and elected official I have drafted legislation and stood with others to fight for civil rights for all Marylanders. Besides organizing for marriage equality, transgender rights and the Trust Act, I was lead sponsor on the Healthy Births for Incarcerated Women Act (HB27), which prohibited the use of restraints during labor and delivery, and of the Password Protection Act (HB964), which protected employees from being compelled to provide their social media (ex. facebook) passwords.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **1) I will advance criminal justice/police reform and protect immigrants' rights. We must use the DOJ consent decree as an opportunity to reform the BCPD, fund and enforce the recommendations of the consent decree, redraft the LEOBR, and protect immigrants against abusive law enforcement; 2) I will fight to ensure that all public schools are adequately funded by fixing the gap and that economic AND race equity indexes are part of any new funding formula proposed by the Kirwan Commission.**

Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **My recent legislation addresses racial and ethnic disparities which impact our communities. SB 350 Reconciliation and Equity a Conversation on Race addresses social injustices, racism, and other inequities. Also, SB 943 Maryland Medical Assistance Program and Health Insurance Coverage - Hepatitis C Drugs sought to eliminate the unfair and indefensible use of a low fibrosis score and allow treatment before the liver is affected. This legislation would have allowed Medicaid to provide coverage to all no matter the level of disease.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **If elected I will continue to support the ACLU and its activities as I have done in the past. I will propose and support legislation that promotes freedom of speech, equal voting rights and as an immigrant myself I will continue to support legislation and issues that advocate for immigrants' rights. Additionally, I will continue to work for the incarcerated population and work towards compassionate release for the sick and elderly that are incarcerated.**
