Please provide two examples of your advocacy to protect and promote civil rights and civil liberties in Maryland. **I have always been an activist and an artist, even prior to adulthood. My advocacy is mostly environmental, especially now because I prefer to know what I'm talking about before I open my mouth and I've spent the last 8 years researching environmental science. My interest, though, has been species conservation for the purpose of preserving biodiversity. Biodiversity and environmental resources are things worth preserving even in urban communities. During my studies I have learned the importance of sustainability and how each biome, including the urban one, is significant to conservation research. I pursue my master's now with the intent to find solutions to urban sustainability as much as endangered species conservation. Those living in poverty are at the greatest risk for drinking polluted water and breathing polluted air. This was the inspiration behind organizing WaCo's 2017 Climate March and, in part, the reason for the pursuit of my BA in environmental studies.**

Please provide two examples of what you will do if elected to protect and promote civil rights and civil liberties in Maryland. **I will support or spearhead the effort to improve the programs available to incarcerated persons, as well as the condition of the prisons. Furthermore, I would really like to see better regulation of prisons in Maryland. If they are going to be private the workers need to be paid a living wage, the CEOs need to be paid less, the corporations can afford to be taxed more, and the facilities could afford better conditions, like better food and programs.**
